Rugged, Reliable Laser Leveling Systems

Setting the Industry Standard
Accurate, stable and very reliable, the Spectra Precision® Laser LL500 is the ideal one-person leveling system for a range of everyday elevation measurements on the construction site.

Designed for use on the jobsite, and reliable even in the harshest of conditions, today more contractors around the world use Spectra Precision Lasers to increase productivity and profitability.

One Laser Levels Your Entire Work Area
The LL500 transmitter sends a continuous, self-leveled 360-degree laser reference over a work area, up to a 500-meter (1,600-foot) diameter. With the LL500, you can perform any two-person leveling task with just one person. Simply set up the laser transmitter anywhere on your job site; it transmits a laser beam to provide an elevation reference that can be picked up by one or more laser receivers, including our innovative HL700 or CR600, whether they are handheld, attached to a grade rod or mounted on a machine.

LL500 Benefits
• Temperature compensation allows you to meet your toughest accuracy requirements in any type of variable environmental conditions.
• Reduces the amount of time required for each grade shot, so more grade shots are taken for increased accuracy.
• Eliminates rework caused by miscommunication or out-of-level instruments with built-in out-of-level warning and shut-off.
• Immediately locates the laser plane with the visible spotting beam.

HL700 Laserometer
The Spectra Precision Laser HL700 Laserometer uses new technology to measure and display beam location and is ideal for use with the LL500 transmitter. The HL700 features a digital readout of elevation that shows exactly how far you are from on-grade allowing quick elevation checks without moving the rod clamp. An anti-strobe sensor stops construction lights from setting off the receiver, and makes it easier to identify true laser beam signals. The protective over molded housing withstands a drop of 3 m (10 ft) onto concrete. The highly visible LED display and dual sided LCD’s allow you to work anywhere.

CR600 Receiver
Another receiver option is the Spectra Precision Laser CR600. In addition to handheld and rod mounted capabilities, the CR600 can be used as a machine-mounted receiver with 270-degree reception and a highly visible display for use on a backhoe, small excavator or skid steer. Improving accuracy, safety and efficiency, the CR600 delivers grade information to the operator right in the cab.
## HL500 Laser Specifications

- **Self-Leveling Range**: ± 11 arc minutes
- **Compensation Type**: Wire Hung, Air Damped
- **Accuracy**: ± 1.5 mm at 30 m (1/16 in at 100 ft)
- **Operating Temperature**: -20°C to 60°C (-4°F to 140°F)
- **Battery Life (AA-2)**: 175 hrs
- **Calibration Mode**: 0.1 mm (1/64 in)
- **Operating Diameter**: 500 m (1,600 ft)
- **Weight**: 0.27 kg (9 1/2 oz)
- **Reception Height**: 127 mm (5 inches)
- **Warranty**: 3 years

## HL700 Laserometer Features

- Digital readout of elevation shows how far from on grade without moving the rod clamp.
- Large 127 mm (5 inch) reception height acquires the beam quickly and keeps you in the laser beam.
- CAPTURE function remotely acquires and retains a measurement when the display is difficult to see.
- Extremely tough - can withstand a drop of 3 m (10 ft) onto concrete and has a 3 year warranty to back it up.

## HL700 Laserometer Specifications

- **Self-Leveling Range**: ± 11 arc minutes
- **Compensation Type**: Wire Hung, Air Damped
- **Accuracy**: ± 1.5 mm at 30 m (1/16 in at 100 ft)
- **Operating Temperature**: -20°C to 60°C (-4°F to 140°F)
- **Battery Life (AA-2)**: 60+ hours continuous operation
- **Auto Shut-Off**: 30 minutes
- **Weight**: 3.6 kg (8 lbs)
- **Reception Angle**: 270 degrees
- **Warranty**: 2 years

## CR600 Receiver Features

- Simultaneous 5-channel green and red LED display ensures that information can be read even in poor light, over long distances, and at an angle.
- Magnetic mount is included for fast machine mounting and holds the receiver firmly in place.
- The CR600 wraparound receiver cells offer continuous pickup through an operating range of 270° for reduced setups and improved productivity, especially in machine applications.

## CR600 Receiver Specifications

- **Seven On-Grade Sensitivities**
  - Ultra Fine 0.1 mm (0.004 in)
  - Super Fine 1.0 mm (1/32 in)
  - Fine 1.5 mm (1/16 in)
  - Medium 3.0 mm (1/8 in)
  - Coarse 6.0 mm (1/4 in)
  - Machine Fine 10 mm (3/8 in)
  - Machine Coarse 25 mm (1 in)
- **Operating Temperature**: -20°C to 50°C (-4°F to 122°F)
- **Battery Life (AA-3)**: 100 hours at normal operation
- **Auto Shut-Off**: 30 minutes
- **Weight**: 0.5 kg (1.1 lb)
- **Reception Angle**: 270 degrees
- **Warranty**: 2 years
